Patents

Patents 1 - 10 on **detected copied identity of terminal equipment**. (0.13 seconds)

Finding copied sim cards

Sort by relevance | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

US Pat. 6341220 - Filed Oct 30, 1998 - Nokia Telecommunications Oy

The **terminal equipment** proper is therefore not confined to a specificarea of a **copied** SIM card may then be **detected** on the basis of unexpectedly high ...

Repeated, multi-channel fiber optic communication network having fault ...

US Pat. 4451916 - Filed May 12, 1980 - Harris Corporation

It is 25 gated for the BER at their location on the **detected** through this ...of an **equipment** failure alarm, either in a transceiver unit at a **terminal** ...

Enabling technique for quickly establishing high speed PSTN connections in ...

US Pat. 5600712 - Filed Apr 5, 1996 - Paradyne Corporation

For example, a user at **terminal** 60 can keyboard dial using the well-known ...**detected** a standard training signal indication from the opposite DCE, ...

Method and system for identifying an illegal terminal in a cellular radio system

US Pat. 6377791 - Filed Oct 6, 1998 - Nokia Mobile Phones Ltd.

Particularly in situations where one legal identifier is **copied** into several ...In state 502 the system requests the **terminal** to disclose its **equipment** ...

Telephone line test system

US Pat. 4139745 - Filed Nov 5, 1975 - Teradyne, Inc.

Apparatus in accordance with claim 5 wherein **identity** of all selected lines on... is 55 said line selecting means is selectively responsive to a **detected**, ...

Mobile communications system

US Pat. 5168498 - Filed May 3, 1990 - British Telecommunications public limited company

In response the base station associated with the **terminal** at the other end ...of adjacent stations **copied** or broadcast, to reduce bandwidth requirements. ...

Inter-circuit line fault location in telecommunication networks

US Pat. 6233312 - Filed Aug 25, 1998 - British Telecommunications public limited company

5, if all the circuits on which the test signal is **detected** are in the cable ...the **terminal equipment** associated with the particular circuit under test. ...

INTERFACE CIRCUITS MPX CONTROL

US Pat. 3842218

If the line is **detected** as busy, the Thus, for either the test or polling mode... input **terminal identity** subscriber number, trunk group Treating first the ...

Automated telephony testing and polling apparatus and system

US Pat. 3969594 - Filed Oct 15, 1974 - Porta Systems Corporation

If the line is **detected** as busy, the information is stored in plural latches or

... (The system may of course input **terminal identity** subscriber number, ...

Method and apparatus for secure message transmission for use in electronic ...

US Pat. 4302810 - Filed Dec 28, 1979 - International Business Machines Corporation

2, P's and R's **equipment** 25 form a loop TM as a result of keyboard entries ...

are **detected** by H. Upon completion of the transmission of the message to H, ...

Patents

Patents 11 - 20 on detected copied identity of terminal equipment. (0.09 seconds)

MULTIPLE SCANNING HEAD FACSIMILE SYSTEM

Sort by relevance | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

US Pat. 3873761 - Filed Jun 14, 1973 - General Electric Company
Once information is **detected** by a scanning head, the information is coupled to an output **terminal** with an indication of the **identity** of the proper head to ...

Channelized receiver system

US Pat. 7006474 - Filed Nov 21, 2001 - ITT Manufacturing Enterprises, Inc.
11 the **identity** of this channel receiver in itself provides a coarse estimate of the **detected** signal's frequency. Using the three second level arbitration ...

Information management and security system

US Pat. 5629981 - Filed Jul 29, 1994 - Texas Instruments Incorporated
Once the **identity** and proximity 2S ... database to a remote information handling **equipment**, and users. conventional printer or other **terminal** device. ...

Method and apparatus for encoding/decoding broadcast or recorded segments ...

US Pat. 5579124 - Filed Feb 28, 1995 - The Arbitron Company
A copy of the code data $g(n)$ is supplied via **terminal** 645 to frequency ...
for advertisements or information relating to the **identity** of the program in the ...

Pocket encrypting and authenticating communications device

US Pat. 5878142 - Filed Jun 10, 1996 - Information Resource Engineering, Inc.
4A, the flow of data through the **equipment**. 25 encrypting/authenticating device in ... key and the or **detected** by the presence of carrier at the modem 40, ...

Process for issuing coupons for goods or services to purchasers at non ...

US Pat. 5884277 - Filed May 1, 1995 - Vinod Khosla
However, special secure **equipment** at the purchaser's site is required. ...
on special paper which cannot be easily **copied**, referred to as secure stock. ...

System for intercept of wireless communications

US Pat. 6577865 - Filed Nov 5, 1998 - Ulysses Holdings, LLC
Answer: A party has answered the call attempt. 35 2. Change: The **identity** ...
Termination Attempt: A call attempt to an intercept subject has been **detected**. ...

Method and apparatus for CPU failure recovery in symmetric multi-processing ...

US Pat. 5815651 - Filed Sep 6, 1996 - Digital Equipment Corporation
At Block A it is **detected** that the CPU2 18 has failed. ... At Block C the SPU 12 inserts the state, including the **identity**, of the failed CPU2 18 into the ...

Method and system to issue an electronic visa of a foreign visitor at a ...

US Pat. 7118027 - Filed May 10, 2004

The US-VISIT uses scanning **equipment** to collect bio- metric identifiers, ...
Secure integration of an ATM **terminal**/computer kiosk with the customs and ...

Method and system to validate periodically the visa of a foreign visitor ...

US Pat. 7140535 - Filed Feb 4, 2004

The US-VISIT uses scanning **equipment** to collect bio- metric identifiers, ...
it is possible for a visitor to fraudulently change his **identity**. ...

Patents

Patents **21 - 25** on **detected copied identity of terminal equipment**. (0.07 seconds)

Mycobacterium tuberculosis specific proteins and genes, mixtures of antigens ...

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

US Pat. 6596281 - Filed Jan 26, 2000 - The Public Health Research Institute of the City of New York, Inc.
The same positive signal was **detected** using dnas extracted from other ...
produced a reaction of complete **identity**. Also, using sera from guinea pigs ...

Systems and processes for scheduling and conducting audio/video communications

US Pat. 7256816 - Filed Oct 25, 2004 - 3V Technologies Incorporated

At block 432, if a technical problem is **detected**, a session key may be issued to the
... the appropriate record in the scheduling **equipment** may be updated. ...

Independently switched voice and data calls using a single PSTN line connection

US Pat. 6407995 - Filed Aug 14, 1997 - Lucent Technologies Inc.

This incoming call is **detected** by the ISP 800A and the Caller-Id **equipment** ...
line between a switching system of said second party and **terminal equipment** ...

Serial network topology and reconfiguration generator

US Pat. 5335227 - Filed Dec 20, 1990 - International Business Machines Corporation

The Attach- a frame test failure being **detected** at 1017 and the pro- ment ...
the AMT is incremented by 1 modulo 41105 and the address or **identity** of the ...

System for detecting unauthorized account access

US Pat. 5696824 - Filed Jun 7, 1995 - E-Comm Incorporated

... Inc., shows a method and system for verifying the **identity** of a user, ...
Inc., shows a system which receives an **equipment** ID for each user **terminal** and ...
